Why Choose Us?

was established with the aim of providing quality services to our domestic and commercial clients in the area of our expertise. From the beginning of the existence of Al-Shahab Solutions Corporation For General Contracting, we have strived to deliver flawless products and services and seamless buying experiences to our domestic and commercial clients. Our Steel and Aluminum fabrication services can help you with construction, landscaping and security projects.

Being a locally owned and operated business puts us at an advantage. Not only do we have relationships with reputable suppliers in the region, but we offer personalized and efficient services to every customer.

Aside from our steel fabrication services, we also work with aluminum. We also provide roofing and steel installation services.

From stairs and handrails to security doors and framing system, we can also fabricate the custom steel products you require for construction, landscaping, security and other projects. Every item is made in house and to the highest standard of workmanship.

We have worked for commercial, industrial and domestic clients that include warehouse, sports complexes, schools, retail centers, offices, shopping malls, coffee shops, restaurants, hospitals and government buildings.
